

SLaTE-2011 workshop

August 24-26, 2011 (before Interspeech)

Ca' Foscari University, Venice, Italy

<http://project.cgm.unive.it/events/SLaTE2011/>

ISCA-SIG SLaTE

The ISCA (International Speech Communication Association) Special Interest Group (SIG) on Speech and Language Technology in Education (SLaTE) promotes the use of speech and language technology for educational purposes, and provides a forum for exchanging information (<http://www.sigslate.org>).

WORKSHOP THEMES

The workshop will address all topics related to SLaTE, such as:

- Speech technology for education
- Natural language processing for education
- Spoken dialogue systems for education
- Applications using speech and/or natural language processing for education
- Intelligent tutoring systems using speech and natural language
- Development of language resources for SLaTE applications
- Assessment of SLaTE methods and applications

PAPER SUBMISSION

Full 4-page papers should be submitted before April 18, 2011.

Notification of acceptance or rejection of papers will be given by June 10, 2011.

For further information see <http://project.cgm.unive.it/events/SLaTE2011/>

If you have questions, you can send an e-mail to SLaTE2011-org@let.ru.nl.

ORGANISATION

SLaTE-2011 will be organized by Helmer Strik, Catia Cucchiaroni (Radboud University Nijmegen, the Netherlands, technical program), Rodolfo Delmonte and Rocco Tripodi (Ca' Foscari University, Venice, Italy, local organizers), within the framework of the ISCA-SIG SLaTE (see <http://www.sigslate.org>).
